Summer Teen Travel Program

Due to popular demand, we are expanding our summer schedule by offering two extra weeks of art programs for teens!

GRADES 7 TO 10

AUGUST 6 TO 17

Program Itinerary:

Monday, August 6 - New England Aquarium and IMAX

movie. Great combo activity. After watching the IMAX movie and visiting some of the aquarium's special exhibits, teens will learn how to create movement and texture while drawing their own underwater world.

Tuesday, August 7- ICA - The Institute of Contemporary Art.

Let's explore this stunning landmark of the new Boston and visit the collection that represents the very best art being made today. ICA provides an important resource for contemporary culture in Boston, and we will be visiting their permanent collection and their current exhibition.

Wednesday, August 8 - Museum of Fine Arts, Boston.

Teens will have their own interactive customized tour of one of the museum's collection, followed by a hands-on art making workshop in one of the museum's studios.

Thursday, August 9 - Isabella Stewart Gardner Museum.

Join us for this very special guided visit with a surprising twist, an

exciting and intriguing treasure hunt through a collection of more than 2,500 artworks.

Friday, August 10 - Freedom Trail, Urban Art 1.

An interacting and entertaining tour with a few stops along the way. As we tour some of the landmarks, we will be taking pictures, filming, drawing, writing a script, interviewing people and creating the soundtrack for our very own audiovisual production. Each teen will take home a copy of the CD with their creation.

Monday, August 13 - Museum of Fine Arts, Boston.

Teens will have their own interactive customized tour of one of the museum's collections, followed by a hands-on art making workshop in one the museum's studios.

Tuesday, August 14 - Museum of Science.

Teens will watch a movie in the Omni theater, the only domed IMAX theater, and a presentation in the Planetarium, the most technologically advanced digital theater in New England. We will be exploring the unexpected intersection of two fascinating disciplines, Art and Science.
